Share Table

Due to the large amount of food thrown out daily, our school will be implementing a Share Table. The purpose of the Share Table is to make use of what would be wasted food. Students choosing not to eat food items served through the school lunch program may donate items. Items donated must be unopened and wrapped such as: milk, oranges, bananas, yogurt, cheese sticks, peanut butter & jelly sandwiches, Craisins, crackers, and juice. It is our hope that students eat all of the food items served during the lunch period. The overall goal is to make use of the wasted food that can be shared.

Food donated to the Share Table will be available to the teachers. Teachers will take food items from the Share Table to distribute to students with need.
