

TECH TITANS

MOBILE APP ACADEMY FOR GIRLS ENTERING GRADES 6-10

July 31–Aug. 2, 2018

Discover the art of computer programming.

Tech Titans teaches students how to design and create their own functional mobile applications from start to finish. Participants will work in small teams to plan, develop and program their apps using Android tablet devices. The workshop is centered on tutorial-based instruction, so students will learn as they create!

Exercises include:

- Introduction to programming
- Writing and understanding code
- Design fundamentals
- App development
- Team-building activities

This workshop is designed for girls entering grades 6–10. Each student receives an Android tablet to keep, workshop materials and T-shirt. No prior computer programming experience is necessary; all skill levels are welcome.
