The ACRE September 29, 2016

## Be a STAR at Roosevelt and Alliance

In every ACRE Resource, seven student identification numbers will be hidden throughout the publication. If you or your child finds his/her student identification number, have your child come to the office before the following Friday to pick up their **STAR** prize. It pays to be a **Super Thorough Acre Reader!**

## Professional Learning Days

Ever wonder what the staff does during a Professional Learning Day? A LOT!! During a typical PLD at the elementary level, staff receives training in technology, math and literacy. Support staff also receives technology training and then training specifically tailored for the specialty area they teach. All staff participates in a wellness component too. The other 33,970 minutes of a PLD is spent in our home school. During this time, staff focuses on issues and curriculum specified for their individual school. At Roosevelt and Alliance, we are spending our building time learning about best practices in literacy, ways to support all student needs, and forming partnerships to make a collective impact for students, parents, and the community. A huge thank you to the Neenah Joint School District for providing us with this gift of time to work and learn together.
