

Get tested for STIs

Think about your feelings related to having sex & talk to your partner about STI AND pregnancy protection

Get condoms & lubricant

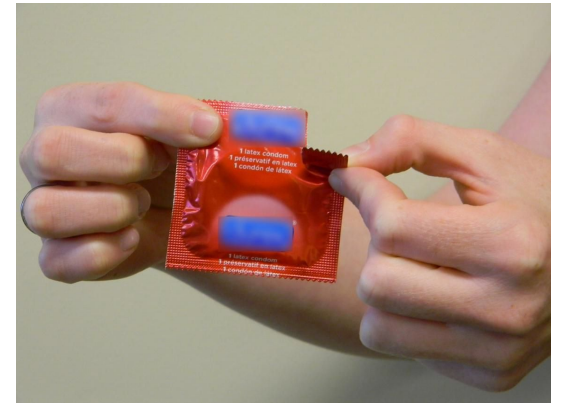

**Make sure it is
consensual**

Check expiration date and for an air pocket
(Always use a new condom every time!)

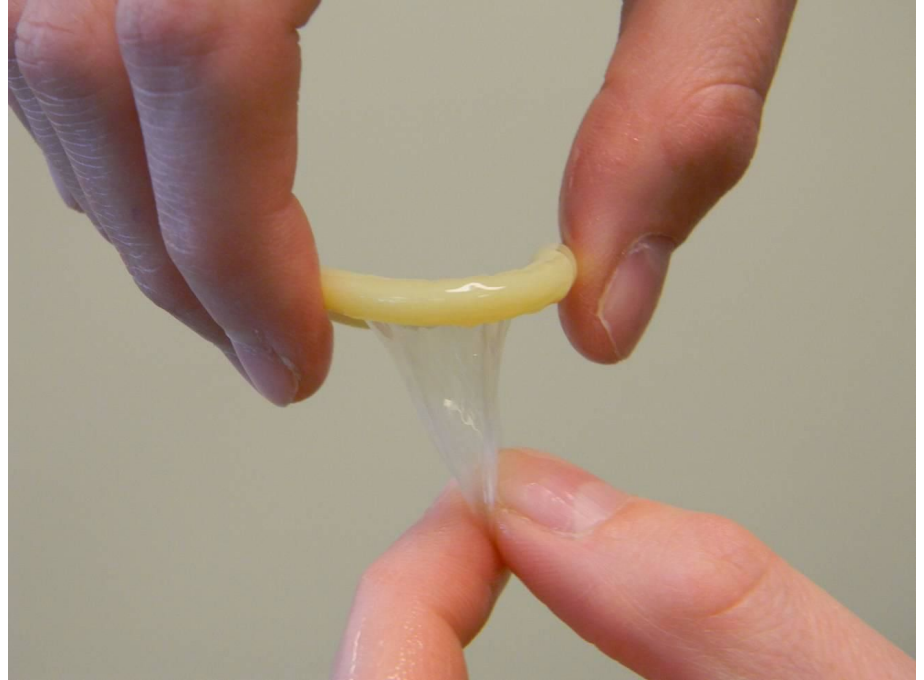

Open the condom
package carefully
(don't use your
teeth)

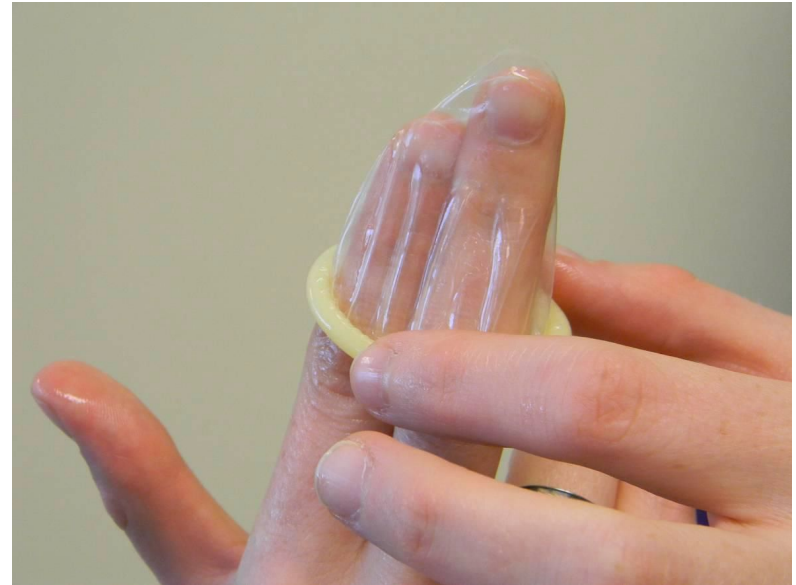

**Can use a drop
of water-based
or silicone
lubricant in the
tip of the
condom**

**Pinch
the tip
of the
condom**

**When the penis
is erect, unroll
the condom
down to the
base of the
penis**

If the condom breaks during sex, pull out immediately.

Use a new condom if you decide to continue.

**After ejaculation
and while still
erect, hold the
base of the
condom, and pull
out of partner**

**Turn away from
partner's body
and carefully
remove
condom (to
prevent spilling)**

Tie up used condom, throw it away, and wash hands
