

YPP

In school, we often go into the computer lab to take YPP tests. When we take a YPP test, we always try our best. We always want our friends to do their best too. When we finish with our YPP test, it is not OK to play on the computer. If we play on the computer, our friends may not be able to do their best on the YPP test.

It may make us sad when we can't play on the computer. It is ok to be sad, but is not ok, to play on the computer.

Instead of playing on the computer, we can read a book. When we read a book, our friends can do their best on the YPP.

It makes my friends and my teacher happy when I read a book after I am done with my YPP test.
