

Working on the iPad

We all have ipads to work on. Ipads are a learning tool. I like using the ipad. Ipads can be a lot of fun!

When I use the ipad I need to remember that there are rules:

- 1. I need to remember to carry the iPad with two hands to my seat.**
- 2. I always need to sit down while using the iPad.**
- 3. I should not bang, slam or hit the iPad.**
- 4. I need to stay focused while learning on the iPad and not change pages.**
- 5. I should use a zero voice while learning on the iPad.**
- 6. I should stop the app. quickly when my teacher tells me to stop.**

Ipads are important learning tools that we use in school. They are very expensive and fragile so I need to be very careful when using them. If I do not follow the rules, I may get the iPad taken away from me and that would make me feel sad. I want to respect school property so I can keep using the iPad in school. That makes me happy.
