

Using a Number “1” Voice

When I am in a classroom and other students are working, I need to remember to use a number 1 voice! I need to use a number 1 voice so that I don't bother my friends that are trying to do their work. It makes my friends sad if I bother them. It makes the teacher feel sad if I bother her.

When I am in a classroom and a teacher or a friend asks me a question, I should answer using a number 1 voice. That way, I won't bother other learners. That is showing respect to my classmates and using expected behaviors.

When I am in the classroom with other students who are working, I need to remember to use a number 1 voice. That is expected classroom behavior.
